## A. Install XDSC COMPONENTS Package

To install XDSC COMPONENTS in LabVIEW prior to version 2013, you must have already installed '*JKI VI Package Manager*'. You can get it from <http://jki.net/vipm>  
Download XDSC COMPONENTS from <http://www.ni.com/labview-tools-network> then double click on the '.vip' file of XDSC Components that you have downloaded:

The window of '*JKI VI Package Manager*' shows the information of our package. Press '*Install*' button and follow the next steps.

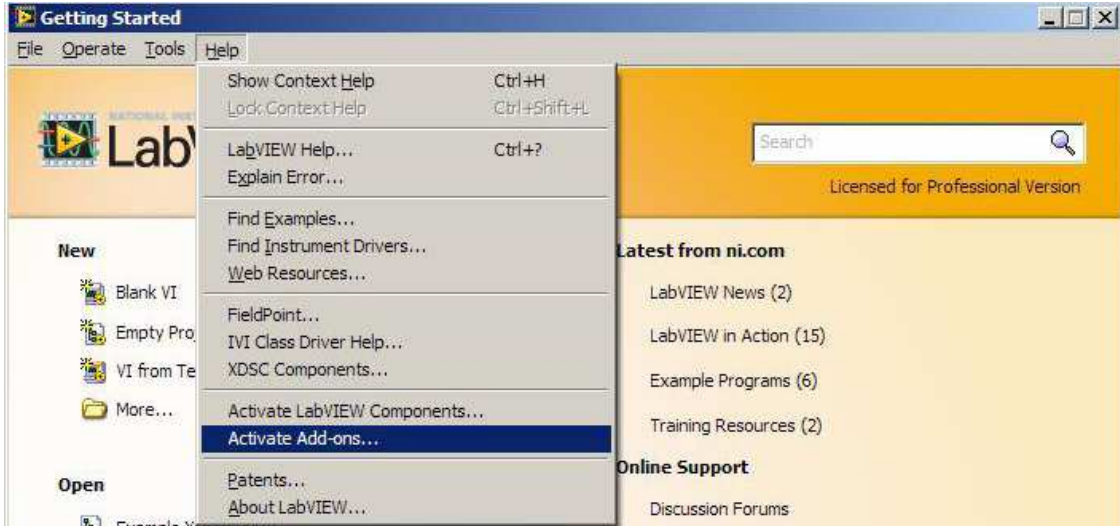

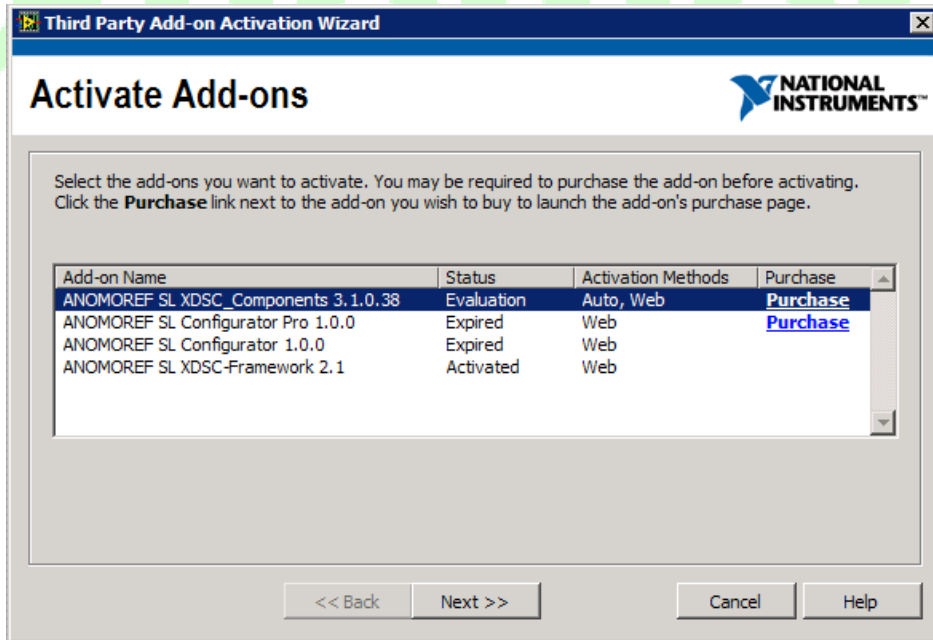

## B. Purchase XDSC COMPONENTS

First, you have to open the 'Activate Add-ons' window. On the LabVIEW main menu, select 'Help->Activate Add-ons...'

On the 'Activate Add-ons' window, select 'ANOMOREF SL XDSC\_Components x.x.x' and press 'Next' button.

You have to click on 'Purchase' link to start the XDSC Components purchase procedure

XDSC\_Components

XDSC Components software tool for NI LabVIEW has been create to improve application development productivity adding extra properties to LabVIEW Shared Variable thus maximizing project modularity and scalability. Drag and Drop XDSC Component and link component elements to the library defined variables in an easy way, simple and fast.
